DETAILED ACTION

Continued Examination

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application on 09/06/2006. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submissions filed on 07/28/2006 and 09/06/2006 have been entered. An action on the RCE follows.

EXAMINER'S AMENDMENT

This application is in condition for allowance except for the presence of claims 9-15 directed to an invention non-elected without traverse. Accordingly, claims 9-15 are cancelled below.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. The application has been amended as follows:

Cancel claims 9-15.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

Art Unit: 2879

Regarding independent claim 1, the prior art discloses and motivates a PDP with the recited shared first and second electrode configuration. See for example US PG PUB's 20010005189, 20010040539, 20020015012 and 20040100195. However, the prior art fails to teach or motivate a plasma display device having at least one of said plurality of second electrodes being formed between two adjacent first electrodes, defining first discharge cells with one of the two adjacent first electrodes, and further defining second discharge cells with the other of the two adjacent first electrodes, at least one of said plurality of first electrodes being formed between two adjacent second electrodes with an area of the at least one of said plurality of first electrodes being larger than that of the at least one of said plurality of second electrodes, in combination with the remaining limitations of the claims.

Claims 2-8 are allowable due to their dependency.

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of reasons for Allowance."
